## **Downey Fly Fishers Welcomes Jessica Strickland of Trout Unlimited**

Jessica Strickland, Trout Unlimited's California Field Coordinator, will be with us to present on TU's work in the southern Sierra Nevada, Eastern Sierra and Southern California. Jessica will focus on ongoing restoration projects and angler science program volunteer opportunities in these areas. She will also discuss TU's Sportsmen Conservation Project, an initiative that educates, organizes and promotes grassroots-level action among anglers and hunters to better protect and manage our public lands.
