

LEFTY KREH & BOB CLOUSER ON FLY FISHING FOR BASS

Lefty Kreh and Bob Clouser represent well over a century of bass catching experience between them. They've tested virtually every kind of tackle and lure

available during the past 50 years. Not surprisingly, their favorite method of catching bass is Fly Fishing, and their expertise in this area is unparalleled.

No matter where you live or fish in North America, there's a pond, river or lake that's full of hungry bass. Whether they have large mouths, small mouths, spots or stripes, they're all fun to catch, and

Fly Fishing is a truly exciting and enjoyable technique to use. Come join us Tuesday night the 11th for "Movie and Pizza" at Apollo Park in Downey from 6 to 9 PM. There will be a tying demo from 6 to 7.
