Head & Body:	Medium or Large Tinsel Chenille/ Color to Match
Eyes:	Barbell Mono Eyes (Black) or Dumb Bell for weight

1. Using the thread make a base over the entire shank. Coat with head cement or Zap a Gap.
2. Tie in at the bend of the hook a small amount of buck tail topped with 6 strands of pearl crystal flash.
3. Lay shell back over buck tail & tie in. Tie off leaving the forward piece long and the trimmed end over the buck tail.
4. Tie in mono eyes and drop some head cement or Zap a Gap to help keep the eyes in place and then wrap some medium chenille building up a head. Tie off chenille and remove and fold the shell back over the chenille forming a shell for the head. Secure the shell back in front of the head with a few wraps of thread.
5. Rotate vice or turn fly over. Tie in some Crystal Flash for legs or beard.
6. Return vice or fly to starting position. Tie in silver wire to be used as ribbing later.
7. Move thread to the hook eye and tie in chenille and wrap the body back to head and forward to hook eye and tie off leaving enough room for shell back and final tie off.
8. Pull shell back over chenille and tie of and trim leaving flap over hook eye. Rib with silver wire to secure shell and tie off. Add a drop of head cement or Zap a Gap.
